QALA FUTHI UBEKE

# Uhlu lokuhlola ukuhlukanisa imali

**Igama** _____ **Ibhizinisi** _____ **Usuku** _____

**Uzogcina unalokhu**
Indawo eyodwa yemali yebhizinisi, irekhodi layo lezinsuku eziyisikhombisa, inani ibhizinisi elingakukhokha lona ngokuphephile, nomthetho wakho wokuzikhokhela.

## 1. Khetha uhlelo lwakho lwemali yebhizinisi

Phawula okukodwa. Yonke imali yebhizinisi izohamba ngale ndawo, futhi ayikho imali yomuntu siqu ezohamba lapho.

- **UHLU LOKUHLOLA**
  - ☐ I-akhawunti yebhange yebhizinisi ehlukile
  - ☐ I-akhawunti yesibili, iwalethi noma ikhadi elisetshenziselwa ibhizinisi kuphela
  - ☐ I-akhawunti eyodwa yomuntu siqu, lapho yonke inkokhelo yebhizinisi ibhalwa encwadini (uze ukwazi ukuvula i-akhawunti yebhizinisi)

**Uhlelo lwami lwemali yebhizinisi (isb. i-akhawunti yebhizinisi egcina ngo-4421)**

_____

## 2. Landelela izinsuku eziyisikhombisa

Bhala konke ukungena nokuphuma kwemali yebhizinisi izinsuku eziyisikhombisa. Sebenzisa ikholamu efanele kukho konke.

- **Iholo lomnikazi**: imali oyithatha ebhizinisini ukuze uyisebenzisele wena.
- **Umnikelo womnikazi**: imali yakho oyifaka ebhizinisini. Bhala "imali ebolekiwe" uma ibhizinisi kufanele likubuyisele yona.

| Usuku | Imali engenayo evela kumakhasimende (R) | Izindleko zebhizinisi ezikhokhiwe (R) | Iholo lomnikazi (R) | Umnikelo womnikazi (R) | Isizathu |
|---|---|---|---|---|---|
| isb. 3 Julayi | 1 800 | 650 | 500 | | Ukuthengisa; isitokwe; ukudla kwasekhaya |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |
| **Isamba** | | | | | |

Lo msebenzi uhlose ukufundisa kuphela. Akuyona iseluleko sentela, somthetho noma sezezimali. Imithetho nezidingo zingahluka ngohlobo lwebhizinisi nendawo. Buza isiphathimandla esifanele noma umeluleki oqeqeshiwe mayelana nesimo sakho.

**Ngaphambi kokuthi imali iphume ebhizinisini, buza**

1. Ingabe le mali ngeyebhizinisi noma ngeyami?
2. Nginayo irisidi noma inothi layo?
3. Ingabe kusele imali eyanele yezindleko ezisesigabeni 3?

## 3. Lokho ibhizinisi okufanele likukhokhe ezinsukwini eziyisikhombisa ezizayo

Bhala izindleko okufanele zikhokhwe maduze: isitokwe, irenti, amaholo, ukuthutha, abahlinzeki, intela.

| Izindleko | Inani (R) | Usuku lokukhokha |
|---|---|---|
| isb. Iholo lomsizi | 1 200 | ULwesihlanu |
| | | |
| | | |
| | | |
| | | |
| **Isamba sezindleko okufanele zikhokhwe** | | |

## 4. Ibhizinisi lingakukhokha malini?

**Imali yebhizinisi enginayo namuhla (R) - Isamba sezindleko okufanele zikhokhwe (R) = Imali engingayithatha ngokuphephile (R)**

**Iholo lomnikazi engilithathe kuleli sonto, kusuka esambeni sesigaba 2 (R). Ingabe lingaphezu kwenani eliphephile? (yebo / cha)**

**INOTHI**

Uma inani eliphephile lingu-R0 noma ngaphansi, ungathathi imali kuleli sonto. Hlola amanani akho, ukuthi amakhasimende akukhokha ngokushesha kangakanani, kanye nezindleko zakho.

### Isinyathelo esilandelayo

**Umthetho wami wokuzikhokhela** (isb. u-R1 000 njalo ngoLwesihlanu, noma ukukhipha imali okurekhodiwe kuphela lapho isamba esingenhla sivumela)

**Usuku lokuqala engizozikhokhela ngale ndlela**

Lo msebenzi uhlose ukufundisa kuphela. Akuyona iseluleko sentela, somthetho noma sezezimali. Imithetho nezidingo zingahluka ngohlobo lwebhizinisi nendawo. Buza isiphathimandla esifanele noma umeluleki oqeqeshiwe mayelana nesimo sakho.

**Isikhathi sokukwenza kabusha**

Masonto onke, ngaphambi kokuthi uzikhokhele, phinda izigaba 3 no-4. Izindleko okufanele zikhokhwe ziyashintsha isonto ngalinye, ngakho nenani eliphephile liyashintsha.

Lo msebenzi uhlose ukufundisa kuphela. Akuyona iseluleko sentela, somthetho noma sezezimali. Imithetho nezidingo zingahluka ngohlobo lwebhizinisi nendawo. Buza isiphathimandla esifanele noma umeluleki oqeqeshiwe mayelana nesimo sakho.
